VOLUME 26 NO. 10

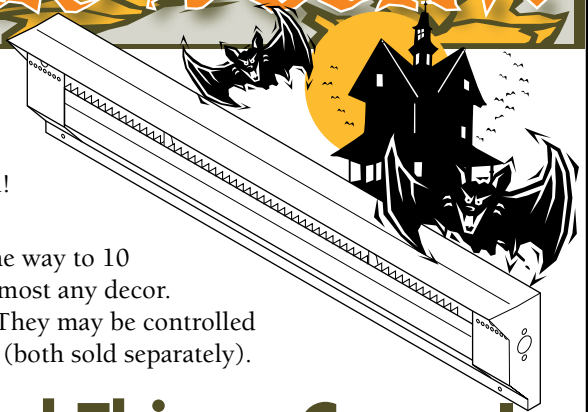

OCTOBER 16 - NOVEMBER 15, 2012

The King of Heat

When the nights get nippy and a chill starts to permeate the air, we know it's time to get the locally-produced **King Baseboard Heaters** out on special! Now's the time to check out that all your baseboard heaters are working!

Our King Baseboard Heaters are available in sizes ranging from 2 ft. 3" all the way to 10 feet. They have an attractive enamel white finish that will blend easily with most any decor. They also have knockouts on either side to allow for installation flexibility. They may be controlled by a baseboard-mounted thermostat or by a wall-mounted room thermostat (both sold separately).

King Baseboard Heaters, 208/240V

Order	Description	Reg.	SALE

10450212	10 ft. baseboard heater, 2500 watts	99.42	78.75

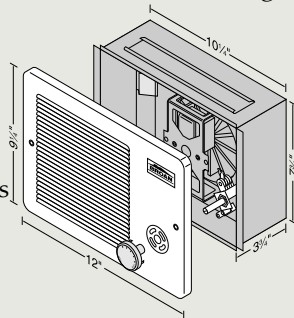

Broan Forced Air Heater

The **Broan Forced Air Heater** has one decided advantage over baseboard heaters: a fan to drive the air. The fan helps to circulate the heat around the room faster for more even heating.

The Broan Forced Air Heater has a durable steel grill. It is rated for 1500 watts at 120 volts AC. It easily converts to 750 watts at 120 volts, 1125 watts at 208 volts, or 1500 watts at 240 volts. It comes with a built-in adjustable thermostat which automatically maintains the desired comfort level (requires 20 amp circuit at 120 volts AC).

Other specifications: Housing, 10-1/4" x 7-3/4" deep; Grill, 12" x 9-1/4" x 1/2"

Note. We also have the Broan 174F, a model that does not have a thermostat.

TIPS & TECHNIQUES

POURING AWAY

Here's a way to avoid making a mess when pouring finish, thinner, or any other liquid from an oblong container: just make sure you hold the can so that the opening is on top. The liquid will leave the can in a steady stream.

Window Insulation Kit

- 42" wide x 62" long
- Shrink film insulates one window
